- Submitted **25+ Apps** on the AppStore.

Education

Branch	College	University	Grade	% Marks
B.E. COMPUTER	HANSABA COLLEGE OF ENGG. & TECH, SIDHPUR	Gujarat Technological University	Distinction	7.77 CGPA

Skills

- Programming Skills: **Swift, Objective-C, SwiftUI, React-Native, Flutter**
- Integration Tools: **Git, BitBucket, GitLab, SonarQube, CI/CD**.
- iOS Skills: **JSON And REST Based APIs, UIKit, Push Notifications, Core Animations, Debugging, AutoLayout, AutoResizing, CocoaPods, Firebase, CoreData, SQLite, SSL Pinning**.
- Social media Integration: **Facebook, Google, Apple Sign-in**.
- Payment Integration: **RazorPay, Stripe, In-App Purchase**.
- Third party libraries for Broadcasting and live streaming: **Agora, Twilio**.
- Third party libraries for Web-Socket: **RocketSocket**.
- Design Patterns: **MVC, MVVM**
- App Distribution: **AppStore, TestFlight, Diawi**
- AI-Tools: **DeepSeek, ChatGPT, MetaAi, Gemini, Grok, GitHub Copilot and More**.

Experience

July 2017 - Dec 2018

EmedStore Pharma IT Company, Ahmedabad, Gujarat

Jan2019 - June 2019

Aintaqaa Technologies, Ahmedabad, Gujarat

July 2019 - June 2020

Attune Infocom Pvt. Ltd. , Ahmedabad, Gujarat

July 2020 - Present

Elsner Technologies Pvt. Ltd. , Ahmedabad, Gujarat

PROJECT

Title	Description
● AHC - Absolute Health Centre	I have developed the Absolute Health Centre app for iPhone and iPad with Swift Programming language. It works on a clinic related app. Patient Book Appointments of a particular doctor and that doctor accept approval and confirm that appointment. Also Chat functionality is there so patients and doctors communicate with each other. Whenever appointment time is near then the doctor can alert that patient for his appointment. Also manage Push notification via firebase.
● MediDoor - Online Pharmacy	Medidoor is a new online shop for the pharmacy to receive payment online, the display offers to all customers, to send an automatic reminder for monthly medicines, patients can send prescriptions via app & much more to get in touch with all customers from anywhere all the time.
● Mandaliya Medicals	Mandaliya Medicals is a new online shop for the pharmacy to receive payment online, the display offers to all customers, to send an automatic reminder for monthly medicines, patients can send prescriptions via app & much more to get in touch with all customers from anywhere all the time
● Sayaaraa - Garage Management System	Digital job cards and estimates on your finger tips. Automatic notifications to customers & one click WhatsApp option. Remind your customers at the right time and grow the business. Track business profitability in real time. Manage end-to-end stock from purchase order to inventory. Manage your customer's workshop visit from booking through to driving away happy. Prepare TAX compliant invoices with the simplest interface. Go green with completely paperless workshop operations.
● CityPoint Restaurant - Take Away or Food Delivery App	Take Away or Food Delivery App.

● ManiCouture - Online Cloth Shopping App	ManiCouture is a fashion destination for online shopping. Choose from the best of brands, and shop for clothing, footwear, accessories and home furnishing for men, women and kids, all at the click of a button.
● Zamy - Food Delivery App ● Zamy DeliveryBoy - Delivery Boy For Zamy ● Zamy Owner - Merchant App	ZAMY is a combination of RESTAURANT MANAGEMENT, POINT OF SALES, FOOD ORDERING, DELIVERY PARTNER. We not only connect people to food but work closely with restaurants to Manage their Restaurant, Sales, Food Delivery and Food Ordering System to enable a sustainable ecosystem of restaurants. The system that existed was extremely complex and not connected with each other. We pivoted everything on the one platform called ZAMY we know today.
● All In The Loop - virtual Event management.	All in the loop is a platform of virtual event management. This app implemented Broadcasting, live streaming, meeting room, video calling ,audio calling and many more features available for connecting people virtually. Here, we are using agora sdk and twilio sdk for the live streaming concept. Also, implemented realtime chat through a web socket. https://allintheloop.com/event-apps/
● Worked With Builder.ai Projects in React-Native	● Bareeq – UAE Cloth Shopping App with Transparent Payment System Developed and maintained a feature-rich e-commerce application for clothing, ensuring a seamless shopping experience with a transparent and secure payment system. Focused on user-friendly UI/UX and smooth transaction processing. ● Fix-Biban – UAE Service Provider Platform for Customers and Service Providers Designed and implemented a service marketplace connecting customers with service providers. Integrated real-time booking, service management, and secure payment features to enhance user convenience and platform efficiency.
